Apr 21, 2016 Underwear Mod is for adult only or is it possible to make it so all people in the spa are completely naked. I'm trying to make an undergarment mod for

SCS that takes all the clothes off the sims, then put clothes on them. Is this possible? I have a.cas with butts on the sim, I had installed the sims 4 no underwear mod and changed the content to vanilla. Any new mods for Sims 4?...

A: There is no ingame way to stop Sims from wearing underwear, it is now official. There are many mods that can help

with this, however I have already tried almost all the good ones and they seem to do nothing. The most promising one is Full Body, but it seems to disappear after updating the game. /****

during periods in which the alternating-current (AC) power supply is turned on and off, for example, in the case of a household power supply using a three-phase power supply device.

When the power supply of the voltage-drop side (negative potential V_{pn}) drops, the operation of the circuit may become unstable due to a drop in power voltage, a drop in

voltage of logic circuit,
etc. Therefore, in the
patent document 1, there
is disclosed a power
supply circuit having an
element which is
arranged across each
voltage source and a
reference potential and
which prevents, by
connecting in series, an
electric current flowing
from the power source
on the voltage-drop side
to the reference potential

when the voltage-drop
side is in a normal state.
